

Understanding The Elijah Life Cycle Of Ministry In Our Own Lives

By Dr. Dan Cheatham, www.devotional.net

I must give credit here to Dr. Bob Hellmann of Huntsville, AL, whose teaching on how God met Elijah need's at the lowest point of his life was the seed that inspired this teaching of my own.

Please read 1 Kings Chapters 18 and 19.

If you don't read these two chapters first, this teaching will not make much sense. The goals of this teaching are: 1) To help you identify with and understand the natural ebb and flow of ministry and Christian living, 2) To help you better deal with the seasons that a Christian will inevitably experience in life, and 3) To help you not be so down on yourself because EVERY BELIEVER GOES THROUGH THESE SEASONS and they are most NORMAL! Yes, you heard me right. In a round about way I just said that YOU ARE NORMAL! Good News: God loves ordinary people who are trying their best to please him and serve him! In order not to give up in life, YOU MUST UNDERSTAND THE ELIJAH LIFE CYCLE OF MINISTRY that happens to you if you are serious about serving God. You must understand the full range of emotions, feelings, and results that happen to every true servant of God during their pilgrimage. Understanding these five cycles will better help you locate where you are at any given period of time, and fill you with hope that things are going to change if you are in a down cycle, and equip you for future warfare if you are in an upward cycle.
